

## Divide Ð shape your space

The multi-functional Divide collection allows flexible partitions to be created in open-plan workplaces. Lockable castors enable them to be moved to create private zones or team focus points. Bring 2 or more Divides together using connecting slots at the base to create larger partition walls. Choose from 3 different configurations.

**Whiteboard:** Made from high-quality dry wipe material, this Divide is great for meetings and jotting down ideas. The tray at the base is perfect for storing your whiteboard pens and eraser.

**Kanban:** Also made from high-quality dry wipe material, Kanban is a highly functional divide allowing team to-do lists, priorities or ideas to be organised in a Kanban format. One side features moveable tiles which can be scribbled on with whiteboard pens. The reverse side is plain and can be used as a whiteboard.

**Birch** This Divide is perfect for those...

## Pricing

Get quotes directly from makers near you:

- \* Request and receive quotes (typically within 48 hours)
  - \* Choose your preferred maker-quote and pay online
  - \* Receive your locally-made furniture direct from the maker
- 

## Designer

Designed and shared openly by:

Josh Worley

Josh was born and raised in the leafy suburbs of Surrey, England before graduating from Central Saint Martins with a First Class Honours Degree in Product Design in 2014. He has spent some of the most exciting and challenging years of his career at Opendesk. Here he has progressed from Designer to Lead Designer to Content Lead, before taking on his current position as Head of Design. In his current position Josh maintains a holistic view of design from the direction and development of physical products to the conceptualisation and realisation of digital tooling through which these products are distributed.
